Investment Philosophy: Disciplined Security Selection

C.S. McKee's fixed income philosophy is founded upon an opportunistic, yet riskcontrolled bottom-up approach. Placing an emphasis on security analysis and selection allows the team to mitigate risk to the portfolio associated with Credit, Duration, or Yield Curve decisions. The portfolio is designed to outperform the Bloomberg US Gov Credit Index on both an **absolute** and **risk-adjusted** basis, while delivering superior quality and liquidity.

McKee is an independent registered investment advisor specializing in institutional and retail investment management services and utilizing a variety of investment strategies and styles; however, such registration does not imply a certain level of skill to training and no inference to the contrary should be made. C. S. McKee mains a complete list of composite descriptions and broad distribution pooled funds, which is available upon request. On January 10, 2002, C. S. McKee, no. Completed a senior management led buyback from Old Mutual, plc, resulting in the formation of C.S. McKee, LP. On March 12, 2020, North Square Investment advisory division.

The Government/Credit Fixed Income Composite was created on January 1, 1992, with an inception date of January 1, 1992. All returns are based in U.S. Dollars and are computed using a daily time-weighted total rate of return. The composite is defined to include fee-paying discretionary accounts that are managed according to the Government/Credit Fixed Income strategy, including those accounts no longer with the firm. For comparison purposes, the composite is measured against the Bloomberg Government/Credit Band Index, formerly known as the Bloomberg Barclays Government/Credit Band Index. The minimum account size for this composite is \$55,000. Prior to January 1, 1204, the minimum account size for this composite was \$15 million. The dispersion of annual returns is measured by the standard deviation of asset-weighted portfolio returns represented within the composite for the full year. The 3-year annualized standard deviation of the composite and benchmark is calculated using monthly returns over past 36 months as of each annual period end. Returns are presented grass and net of management fees is then applied monthly. Prior to 2002, an annual average of the management fees was calculated on a quarterly basis using an asset-weighted composite for to 2002 an annual average of the management fees was calculated and applied quarterly. Actual investment advisory fees incurred by clients may vary. Policies for valuing investments, calculating performance, and preparing GPS Reports are available upon request. Past performance is not indicative of future results. Effective September 1, 2006, any portfolios experiencing combined net flows (cash flows as well as in-kind contributions or withdrawals) greater than 25% of the portfolio's previous day's closing market value were removed from the composite for the month of the event. The fee for the first \$10 million. 0.25% per annum; over \$100 million. 0.20% per annum; freet \$50 million. 0.25% per annum; over \$100 million. 0.20% per annum. "The fee for the first \$10 million is

For additional information, please contact our compliance group at mckeecompliance@csmckee.com

*Assets include those of both C.S. McKee, LP. and CSM Advisors, LLC during a temporary transition period while client consents for the North Square Investments acquisition continue to be obtained. Total firm assets include Unified Managed Account (UMA) assets; GIPS assets do not include UMA assets as CS McKee does not direct the trading for them.

† Dispersion is not applicable because there were 5 or fewer portfolios in the composite for the full year.
