Investment Philosophy: Disciplined Security Selection

C.S. McKee's fixed income philosophy is founded upon an opportunistic, yet risk-controlled bottom-up approach. Placing an emphasis on security analysis and selection allows the team to mitigate risk to the portfolio associated with Credit, Duration, or Yield Curve decisions. The portfolio is designed to outperform the Bloomberg US Aggregate Index on both an **absolute** and **risk-adjusted** basis, while delivering superior quality and liquidity.

CS McKee is an independent registered investment adviser specializing in institutional and retail investment management. Registration does not imply a certain level of skill or training. A list of composite descriptions and broad distribution pooled funds are available upon request.

The securities or positions shown or discussed do not represent a complete listing of portfolio holdings. Actual holdings will vary based on account size, client-imposed restrictions, cash flows, and other factors. There is no assurance that any securities discussed remain in the portfolio or that securities sold have not been repurchased. It should not be assumed that past decisions were or will be profitable. A complete list of holdings is available upon request.

Performance is presented in U.S. dollars and reflects total returns. "Gross" returns are shown before deduction of investment management fees, while "Net" returns are after deduction of such fees. For illustrative purposes, a \$100 million account paying a 0.50% annual management fee, with a 10% gross return compounded over 10 years, would yield a 9.5% net return. Fees are detailed in Part 2A of CS McKee's Form ADV. Past performance does not guarantee future results. Investing involves risk, including the potential loss of principal.

Information shown is as of the date indicated. All data, including top holdings and characteristics, is subject to change without notice. Holdings shown are for illustrative purposes only and are not a recommendation to buy or sell any security. Holdings and characteristics may differ between client accounts managed under the same strategy. CS McKee does not guarantee the accuracy of third-party data.

Benchmark returns are shown for comparison and reflect reinvested dividends. Benchmarks are unmanaged, not investable, and do not incur fees or expenses. Strategy differences—such as risk, holdings, or asset mix—may materially affect results. Benchmark data is from sources believed reliable, but accuracy is not guaranteed.

CS McKee claims compliance with the Global Investment Performance Standards (GIPS®). Composite characteristics, including the number of accounts, assets under management, and dispersion measures, are provided in the GIPS® Composite Report.
